RESPONSE A

Sir:

Applicants have the following response to the Office Action of January 26, 2005.

As explained in the Summary of the Invention, the present invention is directed to a display device and to a driving method of such a display device in which x (x is a natural number equal to or larger than 2) data lines are placed in each column to simultaneously supply video signals to x pixels through the x data lines. See e.g. pages 3-4 of the present application.

Applicants will address each of the Examiner's rejections in the order in which they appear in the Office Action.
